- **Lowest packaging cost:** Up to 30% savings with made-to-measure bags from a reel.
- **High-speed output:** Up to 22 cases per minute.
- **Maximum reliability:** Patented bag opening and automatic format change.
- **High autonomy:** Up to 4,000 bags per reel.
- **Easy operation:** Intuitive 15" HMI.

ULTIM-21-S

Bag Inserter

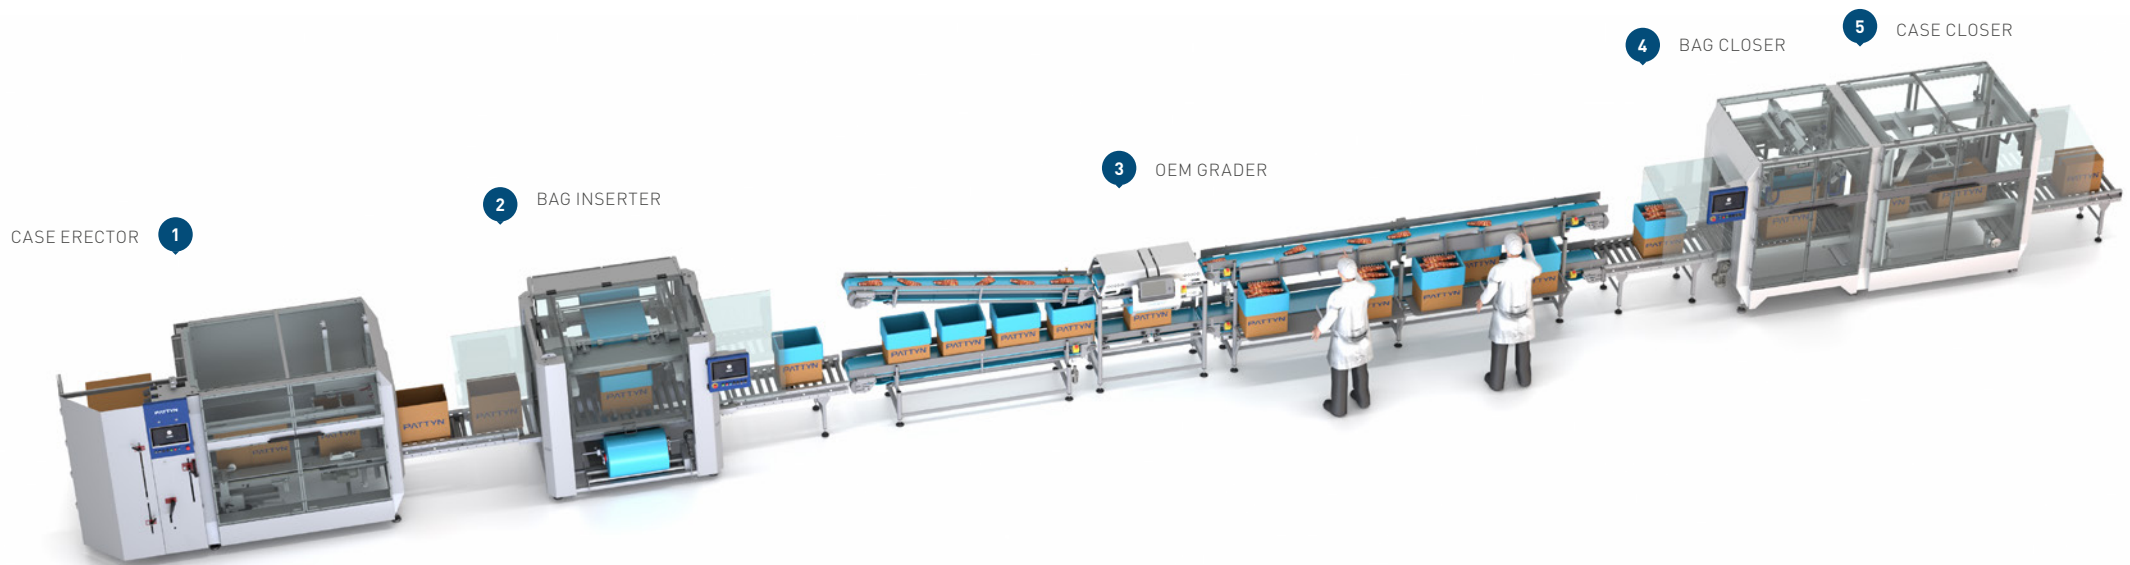

- **3-in-1 compact machine:** Bag inserting, hopper and bag sealing in one machine.
- **Hygienic fish packaging:** Automatic lining and sealing; hose-down design.
- **Easy integration:** Integrated hopper synchronizes with any fish filling system.
- **Efficient & economical:** Up to 8 cases per minute.
- **Easy operation:** Operator-friendly design.

Fish packaging solution

Pattyn offers standalone machines and complete fish packaging lines, covering the full process from case erecting to case closing and palletising at high speed. OEM grading systems are seamlessly integrated for accurate weighing and grading of fish products.

The automated and flexible packaging process increases productivity while allowing easy switching between boxes and crates on a single line, ensuring gentle handling of fresh and frozen fish.
